

NIVER LUIS COPA LOPEZ

Full Stack Software Engineer Oruro, Bolivia | +591 65422166 | vlader122@gmail.com

PROFESSIONAL SUMMARY

Systems Engineer with over 10 years of technical experience in building scalable, real-time enterprise solutions. Expert in **C# (.NET Core)** and **Python**, with a focus on developing seamless integration modules and AI-driven automation. Proven track record in full-stack development using **React** and **Node.js**, specializing in high-availability systems, third-party API integrations, and cloud infrastructure. Accomplished educator and mentor in advanced programming frameworks.

TECHNICAL SKILLS

- **Languages:** C# (.NET Core/Framework), Python (Data Science & AI), JavaScript, TypeScript, Java, PHP, Open Edge Progress.
- **AI & Data Science:** Python 3 Programming, LLM Prompt Engineering, Data Analysis with Python.
- **Frameworks:** React.js, Angular, Node.js, ASP.NET Core, Spring Boot, Laravel.
- **Cloud & DevOps:** Azure, GCP (Familiarity), Docker, Kubernetes, CI/CD Pipelines, Linux Shell Scripting.
- **Databases:** SQL Server, PostgreSQL, MySQL, MongoDB.

PROFESSIONAL EXPERIENCE

JALASOFT | Full Stack Software Engineer | Dec 2021 – Present

- **Advanced C# Development:** Led the architecture and implementation of backend services using **C# and .NET Core**, optimizing data processing for international banking systems (CBS and EFT).
- **Python Integration Modules:** Designed and deployed Python-based integration modules to automate data synchronization between Salesforce and core banking databases, reducing manual error rates.
- **Full Stack Execution:** Developed dynamic user interfaces with **React.js and TypeScript**, ensuring seamless connection with RESTful APIs and high-performance frontend components.
- **System Optimization:** Resolved critical production issues in **Linux** environments, leveraging shell scripting and Open Edge to manage massive datasets and high-concurrency transactions.

A&A INGENIEROS CONSULTORES | Software Consultant | Jun 2016 – Dec 2019

- **Mobile & Web Innovation:** Developed native and hybrid mobile applications for **Android and iOS** (React Native) alongside robust web systems.
- **Enterprise Modules:** Engineered critical HR and Asset Management modules, including payroll systems and automated inventory tracking using **Java and PHP**.

FUNDACIÓN JALA | Full Stack Developer (Intern) | May 2021 – Nov 2021

- Built and deployed scalable web applications using **.NET Core and React.js**, managing cloud infrastructure and SQL Server databases on **Azure**.

EDUCATION & CERTIFICATIONS

- **Bachelor's Degree in Systems Engineering** | Universidad Adventista de Bolivia | 2025
- **Python 3 Programming Specialization** | University of Michigan | 2022
- **Python for Data Science, AI & Development** IBM | 2024
- **DevOps and Software Engineering Professional Certificate** | IBM | 2024
- **English Proficiency (Advanced)** | BYU - Pathway Worldwide | 2023
